NEWS RELEASE

Carolina Process Control (CPC) is now stocking Special High Grade Zinc Anodes

FOR IMMEDIATE RELEASE: *Forest City, NC* April 10, 2006: Carolina Process Control (CPC) of Rutherfordton, NC, a well known distributor of metal finishing chemicals and equipment, are expanding their in-stock product line to include 2” zinc anodes. They have announced a new distributor agreement with Mid American Alloys to stock, and distribute Special High Grade Zinc Anodes for the Southeast from their new Forest City, NC warehouse.

"CPC is extremely excited about the opportunity to provide zinc plating shops in the Carolinas with a local source for zinc anodes," said Paul Fisher, President and CEO." CPC is now offering an unprecedented same day or next day delivery to a 100 mile radius of their Forest City, NC warehouse. Mid American Alloys has been in business for over 20 years refining Special High Grade (SHG) zinc and zinc alloys for the electroplating, die-casting, and corrosion control industries.
